Figure 1 shows a legend for map symbols. It lists six categories with their corresponding line styles or patterns:

- All Roads: Solid line
- Railroad: Line with cross-ticks
- Pipe/Power Line: Line with small squares
- Physical Feature: Dashed line
- Nonvisible Boundary: Dotted line
- Stream/Shoreline: Blue line

To the right of the legend, three examples are shown:

- A blue line labeled "Stream/Shoreline".
- A blue line with cross-ticks labeled "Intermittent Stream".
- A blue line with wavy patterns labeled "River" and "Glacier".

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A '*' following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
